It's really creative, and it's such a good time killer. Like the other evolution s i. evolution I love that we can choose which era of evolution we can choose. I hope we can get more evolution games like evolution of food, or maybe even film development. The style you put it in is very wonderful and sometimes humorous. Keep up the good work. Golden Game 2.0 said this is a very, very good game that everyone should be able to in this game because it is so much fun, although it is a drug bomb with all the bombs and you will have another bomb and look different that is still a very very good game, but I'm going to be kind to a bad kind of good movie you're going to charge me a book and a tool with this game because Mr. Slots will be over because I win our chances and he won't give me a single time with any bacteria, so I'm a little crazy, but I have a very good game that breaks the phone or the tent in my comment do not tell me to come it's long enough so I do not mind also stay safe with the mask that I have to go with me then what do you say bye on the way to me gold player played only the best game in the App Store and let me tell you because I play this game that it's a pool but I mean golden player Plano I made one of the best games in the world I'm not just saying to be happy because I never win the game, but otherwise I do not know stay safe you have to give me was if necessary not to get the crown You did not create a meme I think it's called Kelona I think that the so-called dead meme it's called, but otherwise bye Big Bang Evolution is another outstanding evolution game for the company. Having the same style as Homo Evolution was a good decision and so the random ads will give you a reward after all! It's even better. I collected all the bombs myself, and so I beat the game. It would be much more fun to move to entire galaxies, not just the six planets we've already seen. Errors? When you try to give birth to a bomb directly from the bomb shop, it never loads, it just stops at 2/3s there. There isn't a cool ending scene when you collect all the Epoch bombs, which is disappointing. Overall, a very good game.
